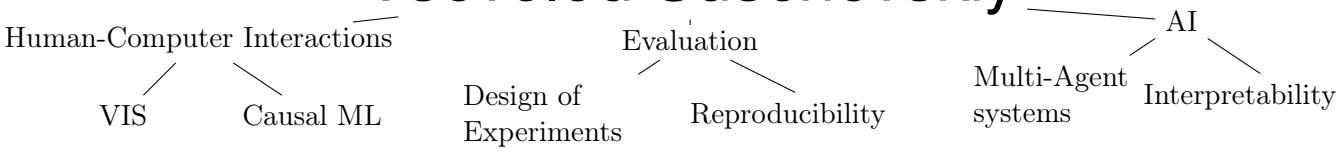
Vsevolod Suschevskiy



Norrköping, Sweden | vsevolod.suschevskiy@liu.se | vvseva.quarto.pub

- I am a PhD student working at the intersection of human-computer interaction, interactive data visualisation, and social simulations.
- With an interdisciplinary background spanning HCI, Computational Social Science, and Technology-Enhanced Learning, I build tools that help people make sense of complex data and uncertainty.
- I look forward to designing novel, exploratory tools and human-centred experiences that bridge the gap between people and intelligent systems, and to contributing to a product with users. #human-ai-vis

Education

Linköping University
June 2025 – Present
PhD Student in Visualization & Interaction Design
Norrköping, Sweden

- Affiliated with Wallenberg AI, Autonomous Systems and Software Program (WASP).
- Designing interactive visual analytics interfaces and simulation environments to explore complex agent-based dynamics and model behavior.

Northwestern University
June 2022 – May 2025
MSc Technology and Social Behavior
Evanston, IL, USA

- Research: Human-AI teamwork, reproducible experimental tools.
- Design of Experiments, Design of Technological Tools, Social Network Analysis.

HSE University
Sept. 2020 – June 2022
MSc Information Systems and Human-Computer Interaction
St. Petersburg, Russia

- Thesis: "Experiments in Designing Personalized Motivational Systems"

HSE University
Jan. 2017 – June 2020
BA Sociology and Social Informatics
St. Petersburg, Russia

- Exchange semester at University of Bergen (Norway), 2019.

Research Internships

Northwestern University (SONIC & ATLAS Labs) — June 2022 – May 2025
Graduate Research Assistant — Evanston, IL, USA

- Designed and implemented virtual laboratory experiments examining coordination and decision-making in Human-AI teams.
- Architected interactive experimental platforms migrating from Wizard-of-Oz setups to LLM-powered collaborative agents on Empirica.ly (React/Meteor).
- Evaluated team dynamics across multi-agent experimental setups with 200+ participants.
- Mentored undergraduate researcher assistants in full-stack experimentation and data pipeline workflows.

Centre for the Science of Learning & Technology (SLATE) — Jan. 2020 – June 2021
Research Assistant — Bergen, Norway

- Built an end-to-end interactive experimental platform (R Shiny, Elasticsearch) to evaluate algorithmic choice architecture and decision support.
- Conducted think-aloud usability interviews and iterative user testing across multiple prototype deployments.

VK — July 2021 – Sept. 2021
Research Intern (Core Analytics) — St. Petersburg, Russia

- Analyzed large-scale interaction network topologies to evaluate dynamics of Dunbar's number in online communication circles.
- A public Teach Talk video (in Russian)

Technical Skills

Interactive Interfaces: JavaScript (D3.js, React), R Shiny, Streamlit, Empirica.ly
HCI & Prototyping: Figma, Low-fidelity prototyping, Usability testing, Think-aloud protocols, Hardware (Raspberry Pi)
AI & LLM Frameworks: LangGraph, Hugging Face, PyTorch/TensorFlow, spaCy, Prompt/Agent design
Data Analysis & Visualization: R (tidyverse, ggplot2), Python (pandas, Plotly, PySpark, Seaborn), Tableau, SQL
Engineering & Infrastructure: Docker, Git, AWS, ClickHouse, MongoDB

Professional Service

SICSS-IAS | *Teaching Assistant* — June 2025

- Prepared materials for the Summer Institute in Computational Social Science at the Institute for Analytical Sociology (Linköping).

OVD-Info | *Volunteer* — Oct. 2024 – Present

- Data volunteering for independent human rights defense group.

IC2S2 2025, EUSN2026 | *Session Chair* — July 2025, August 2026

- Conference volunteering and chairing session on Social Networks

Women Data Leaders in Russia — Sept. 2018 – Jun. 2020

- Organized poster session; Interviewed Jana Diesner and Milena Tsvetkova; Edited video for YouTube channel
